

New Jersey Congressional District 1

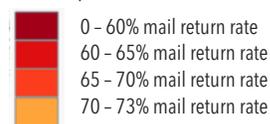

New Jersey Congressional District 1 had a total of **110,463** people living in “hard to count” (HTC) census tracts—or areas where a low percentage of residents completed and returned their most recent census questionnaire. This number equates to a total of **15%** of the district’s total population.

Total population	732,607
Population living in HTC areas	110,463
Percentage living in HTC areas	15%

Hardest to Count (HTC)

Tracts with 2010 mail return rates of 73% or less (in the bottom 20 percent of return rates nationwide) are shaded on the map. Tracts with >73% return rate are not displayed.

The Census has low response rates in some areas and among certain population groups, who are at risk of being undercounted. Some of these hard to count population groups include certain racial and ethnic minority groups and children under age 5. For example, of all children under age 5 living in Congressional District 1, **21%** lived in areas at greatest risk of undercount. Census 2020 will be the first time that the Census is conducted using internet responses in addition to mail-in and in-person responses. As a result, households with no or limited internet access may also be at risk of not being counted.

● Demographic Groups Living in Hard-to-Count Areas

Demographic Group	Number Living in HTC Areas	Percentage Living in HTC Areas
Black or African American	48,513	35%
Hispanic or Latinx	39,335	42%
Asian	3,955	9%
Children Under Age 5	9,328	21%
Households with Limited or No Internet Access	39,491	15%

Some parts of New Jersey have a greater proportion of hard to count census areas than others. The chart below shows the municipalities in District 1 with at least one hard to count census tract.

● Municipalities with at Least One Hard-to-Count Area (Total Population ≥ 5,000)

Municipality	HTC Population	% Total Population Living in HTC Areas	% Black or African American Living in HTC Areas*	% Hispanic or Latinx Living in HTC Areas*	% Asian Living in HTC Areas*	% Children Under Age 5 Living in HTC Areas*
Camden	69,427	91%	97%	86%	98%	92%
Glassboro	11,410	59%	61%	77%	65%	46%
Gloucester Township	8,704	14%	20%	18%	7%	21%
Lindenwold	5,478	31%	39%	44%	10%	32%
Maple Shade	5,280	31%	91%	54%	54%	52%
Pennsauken	3,006	8%	12%	9%	3%	8%
Woodbury	2,196	22%	15%	23%	20%	26%

*Hard-to-count demographic sub-group populations out of total sub-group populations.
