

New Jersey Legislative District 10

New Jersey Legislative District 10 had a total of **11,583** people living in “hard-to-count” (HTC) census tracts—or areas where a low percentage of residents completed and returned their most recent census questionnaire. This number equates to a total of **5%** of the district’s total population.

| | |
|--------------------------------|---------|
| Total population | 227,128 |
| Population living in HTC areas | 11,583 |
| Percentage living in HTC areas | 5% |

The Census has low response rates in some areas and among certain population groups, who are at risk of being undercounted. Some of these hard-to-count population groups include certain racial and ethnic minority groups and children under age 5. For example, of all children under age 5 living in Legislative District 10, **5%** lived in areas at greatest risk of undercount.

● Demographic Groups Living in Hard-to-Count Areas

| Demographic Group | Number Living in HTC Areas | Percentage Living in HTC Areas |
|---------------------------|----------------------------|--------------------------------|
| Black or African American | 1,120 | 13% |
| Hispanic or Latinx | 2,259 | 12% |
| Asian | 714 | 9% |
| Children Under Age 5 | 509 | 5% |

Some parts of New Jersey have a greater proportion of hard-to-count census areas than others. The chart below shows the municipalities in District 10 with at least one hard-to-count census tract.

● Municipalities with at Least One Hard-to-Count Area (Total Population ≥ 5,000)

| Municipality | HTC Population | % Total Population Living in HTC Areas | % Black or African American Living in HTC Areas* | % Hispanic or Latinx Living in HTC Areas* | % Asian Living in HTC Areas* | % Children Under Age 5 Living in HTC Areas* |
|--------------|----------------|--|--|---|------------------------------|---|
| Brick | 6,600 | 9% | 23% | 16% | 15% | 9% |
| Toms River | 4,983 | 5% | 18% | 17% | 9% | 4% |

*Hard-to-count demographic sub-group populations out of total sub-group populations.
