

New Jersey Legislative District 13

New Jersey Legislative District 13 had a total of **4,186** people living in “hard-to-count” (HTC) census tracts—or areas where a low percentage of residents completed and returned their most recent census questionnaire. This number equates to a total of **2%** of the district’s total population.

Total population	222,611
Population living in HTC areas	4,186
Percentage living in HTC areas	2%

The Census has low response rates in some areas and among certain population groups, who are at risk of being undercounted. Some of these hard-to-count population groups include certain racial and ethnic minority groups and children under age 5. For example, of all children under age 5 living in Legislative District 13, **2%** lived in areas at greatest risk of undercount.

● Demographic Groups Living in Hard-to-Count Areas

Demographic Group	Number Living in HTC Areas	Percentage Living in HTC Areas
Black or African American	372	5%
Hispanic or Latinx	699	5%
Asian	313	2%
Children Under Age 5	240	2%

Some parts of New Jersey have a greater proportion of hard-to-count census areas than others. The chart below shows the municipalities in District 13 with at least one hard-to-count census tract.

● Municipalities with at Least One Hard-to-Count Area (Total Population ≥ 5,000)

Municipality	HTC Population	% Total Population Living in HTC Areas	% Black or African American Living in HTC Areas*	% Hispanic or Latinx Living in HTC Areas*	% Asian Living in HTC Areas*	% Children Under Age 5 Living in HTC Areas*
Keansburg	4,186	42%	46%	39%	61%	41%

**Hard-to-count demographic sub-group populations out of total sub-group populations.*
