

# Food For Thought: Expanding School Breakfast to NJ Students Atlantic County Profile, 2015

## School Breakfast NJ County Rankings

| County     | 2015 Percent of Eligible Students Receiving Breakfast | 2015 Rank | 2014 Rank |
|------------|---|-----------|-----------|
| Passaic    | 70  | 1         | 13        |
| Cumberland | 54  | 2         | 1         |
| Essex      | 51  | 3         | 3         |
| Camden     | 50  | 4         | 5         |
| Hudson     | 50  | 5         | 4         |
| Cape May   | 48  | 6         | 2         |
| Atlantic   | 48  | 7         | 7         |
| Somerset   | 48  | 8         | 9         |
| Middlesex  | 48  | 9         | 6         |
| Union      | 44  | 10        | 11        |
| Salem      | 43  | 11        | 17        |
| Gloucester | 40  | 12        | 16        |
| Monmouth   | 39  | 13        | 10        |
| Ocean      | 37  | 14        | 14        |
| Warren     | 37  | 15        | 8         |
| Mercer     | 34  | 16        | 12        |
| Burlington | 32  | 17        | 15        |
| Morris     | 30  | 18        | 20        |
| Sussex     | 27  | 19        | 18        |
| Bergen     | 25  | 20        | 19        |
| Hunterdon  | 2   | 21        | 21        |

**Sources:** ACNJ calculated the above ranks using NJ Department of Education October 2014 enrollment counts to determine the number of eligible children and NJ Department of Agriculture school breakfast participation data, April 2015.

## Breakfast After the Bell Fuels Increases in School Breakfast

Everyone agrees that children need to start their school day with a full stomach. After years of being nearly last in the nation for its participation in the federal School Breakfast Program, New Jersey has shown strong improvement over the past five years.

In 2015, the state moved to 28th nationally, compared to its previous ranking of 46th for student participation in this critical child nutrition program. This progress is the result of a growing number of New Jersey districts switching to serving “breakfast after the bell,” rather than before school, when most students have not yet arrived.

This approach, typically done in the classroom during the first few minutes of the school day, significantly boosts participation, giving more kids the nutritious start to the school day that can help them concentrate and learn.

Since the program is federally funded, most districts with high concentrations of low-income children can feed all students at little or no extra cost, leveraging the considerable investment New Jersey makes in public education.

As part of the NJ Food for Thought Campaign, Advocates for Children of New Jersey each year compiles breakfast participation data for every New Jersey school district with at least 20 percent of children eligible for free- or reduced-price breakfast. These districts are required by state law to offer breakfast at school.

Following is the news release and profile for Atlantic County and ways local advocates can use this information to increase school breakfast participation.

# Food For Thought: Expanding School Breakfast to NJ Students

## Atlantic County

2015 Rank

7

2014 Rank: 7

Recognizing that hunger is a major barrier to learning, New Jersey school leaders have made great progress in recent years in serving breakfast to more low-income students. From 2010 to 2015, New Jersey schools posted a 75 percent increase in the number of low-income students eating breakfast at school, primarily by serving “breakfast after the bell,” usually in the classroom. While encouraging, nearly 300,000 NJ students are still missing out on this morning meal that can help them concentrate and learn.

To help identify districts with low participation that would benefit from more effective breakfast programs, Advocates for Children of New Jersey provides this district-by-district breakdown of breakfast participation rates and the additional federal dollars districts would receive if 100 percent of eligible children participated.

### School Breakfast Participation, April 2015

| School District                   | # of Students Eligible for Free/Reduced Breakfast | Eligible Students as % of Total Enrollment | % of Eligible Students Receiving Breakfast | # Eligible Students NOT Receiving Breakfast | Total Possible Federal Reimbursement* |
|-----------------------------------|---|--|--|---|---------------------------------------|
| Absecon                           | 386   | 47   | 21   | 304   | \$83,218                              |
| Atlantic City                     | 6,558   | 90   | 88   | 768   | \$215,773                             |
| Atlantic Community Charter School | 148   | 99   | 84   | 23  | \$6,325                               |
| Brigantine                        | 336   | 49   | 21   | 265   | \$72,180                              |
| Buena Regional                    | 1,054   | 58   | 44   | 587   | \$158,843                             |
| Charter~Tech High School          | 203   | 60   | 33   | 135   | \$37,260                              |
| Egg Harbor City                   | 389   | 77   | 90   | 37  | \$10,199                              |
| Egg Harbor Township               | 3,620   | 48   | 21   | 2,866                                       | \$778,586                             |
| Estell Manor                      | 32  | 20   | 50   | 16  | \$4,010                               |
| Folsom                            | 153   | 37   | 50   | 76  | \$20,264                              |
| Galloway Community Charter School | 193   | 83   | 48   | 101   | \$26,942                              |
| Galloway                          | 1,756   | 54   | 31   | 1,213                                       | \$330,127                             |
| Greater Egg Harbor Regional       | 1,530   | 46   | 29   | 1,089                                       | \$296,374                             |
| Hamilton                          | 1,195   | 39   | 57   | 508   | \$139,021                             |
| Hammonton                         | 1,447   | 40   | 27   | 1,062                                       | \$291,773                             |
| Mainland Regional                 | 337   | 25   | 26   | 248   | \$67,129                              |
| Mullica                           | 361   | 47   | 18   | 296   | \$81,428                              |
| Northfield                        | 211   | 23   | 5  | 201   | \$54,896                              |

## **Atlantic County Remains 7<sup>th</sup> for School Breakfast Participation**

Atlantic County saw no change in its 7<sup>th</sup> place ranking for the number of low-income children eating breakfast at school, with Atlantic public schools feeding nearly half of eligible children, according to county profiles released today by Advocates for Children of New Jersey.

Fifty-eight percent of Atlantic County students are eligible to receive free- and reduced-priced school meals; 48 percent of these students actually received breakfast at school in April 2015, compared to 44 percent the previous year. While Atlantic County's rate is higher than the statewide average of 44 percent, nearly 13,000 eligible students are still missing out on a morning meal.

Atlantic County's student participation rates ranged from a high of 88 and 90 percent in Atlantic City and Egg Harbor City, respectively, to a low of 5 percent in Northfield.

Statewide, New Jersey has seen a 75 percent increase in the number of New Jersey students receiving a healthy breakfast at school, rising from about 136,000 children in October 2010 to 237,000 in April 2015. This is primarily due to a growing number of districts serving "breakfast after the bell," during the first few minutes of the school day, which significantly boosts breakfast participation.

New Jersey districts are expected to collect \$92 million in federal reimbursements for school meals as a result of this increase, according to the FY 2016 state budget. If Atlantic County achieved 100 percent participation, the county's school districts would receive \$3.5 million in additional federal dollars to provide school breakfast to students, according to state statistics compiled by ACNJ.

ACNJ also released its 5<sup>th</sup> annual NJ Food for Thought School Breakfast Report, along with the district-level data today at the Fred W. Martin School in Jersey City, which is now serving breakfast after the bell in all of the district's schools.

Before making this change three years ago, only 18 percent of eligible Jersey City students benefited from school breakfast during the 2011-12 school year. Now, the district is serving 63 percent of eligible students. The increase in federal meal reimbursements has allowed the district to cover the cost of providing free breakfast to all Jersey City students, school officials said.

Jersey City Superintendent Marcia Lyles said the students are benefiting from having breakfast each morning and that many of our educators have expressed strong support for the program.

“The students are more focused and ready to learn,” Lyles said. “Initially, there were concerns that the program would be disruptive, however our talented and dedicated staff found ways to make it work for children. As a district, we have systems in place that are running smoothly. Everyone is working together to ensure that all of our students have the nutrition they need to succeed in school.”

ACNJ releases district-level data to help school and local officials, county leaders, parents and others identify districts that are doing well on this front – and those that need to rise up to meet the school breakfast challenge.

“It is our hope that local, county and state officials and advocates will use this information to convince school boards and superintendents that expanding school breakfast makes sense for children, their districts and the state as a whole,” Zalkind said.

The NJ Food for Thought Campaign is a statewide effort to increase the number of students eating breakfast at school. The coalition includes New Jersey anti-hunger, education and health organizations, the New Jersey Departments of Agriculture, Education and Health and child advocates. The Food Research Action Center, the American Dairy Association and Council and the Mid-Atlantic Dairy Council are the campaign’s national partners.

“This successful campaign has resulted in more students starting their school day with a healthy meal, while bringing additional federal dollars into the state and leveraging the considerable investment we make in public education,” Zalkind said. “Our children need and deserve this healthy start to their school day.”

Advocates for Children of New Jersey is a statewide, non-profit child research and action organization committed to ensuring that every child has the chance to grow up safe, healthy and educated.

## Food For Thought: Expanding School Breakfast to NJ Students

### Join the campaign to expand school breakfast in New Jersey...

A growing number of New Jersey school districts are adopting innovative approaches to serving breakfast to children in school. These districts have met logistical concerns over instructional time and clean-up. School officials that serve “breakfast after the bell” report significant increases in participation rates and improved student behavior and performance. Plus, these districts are claiming more federal dollars to feed hungry kids.

ACNJ provides this district-level data on school breakfast participation to assist school officials and advocates in implementing more effective breakfast programs. ACNJ is a leader of the NJ Food for Thought School Breakfast Campaign, which has compiled a host of advocacy and implementation resources on its website, [www.njschoolbreakfast.org](http://www.njschoolbreakfast.org).

You can use this information to influence change in your community by presenting the report and data to your:

- School board
- Superintendent, business administrator and food services coordinator
- Parent Teacher Association (PTA or PTO)
- Local community and government agencies that can become partners in your campaign
