Source: As reported by the NJ Department of Children and Families on the NJ Child Welfare Data Hub. www.njchilddata.rutgers.edu/
 In order to protect the privacy of children and families, some data have been suppressed. When data is less than 10, these values are reported as zero with an asterisk on the chart and are not true zeroes. For suppressed data displayed in the table, these values are displayed as "<10*". At times, a green triangle is displayed on the graph or a null sign "∅" is shown in the table. These symbols indicate that no children or cases meet the selected search criteria. Therefore, a percentage cannot be calculated. Please note that figures include all youth residing in out-of-home CP&P placements, including youth ages 18 and older.
